与万物和睦相融，
亦是 HO 系列的出发点。
“O”代表了对本质的思考，

The post-90s and post-00s have entered the workplace,
has become the backbone of the workplace,
Compared to the beginning of this century,
At present, the social economy and living standards of residents have been quite developed and high-quality,
Our cultural and artistic development is also maturing.
The new generation of trendy children has formed requirements for aesthetics,
They have considerable requirements for corporate culture and working environment.
This has also become a key factor in the stability of human resources in today's enterprises.
How to improve employee satisfaction and loyalty has become a new challenge.
In the situation of white-hot market,
We do not forget our original intention, return to the source point,
To design that truly respects the user,
Stylish and cost-effective products.
Inspired by the concept of "Zen" in the Chinese East,
In harmony with all things,
It is also the starting point of the HO series.
The "O" represents thinking about the essence,
It also represents a harmonious view of the world,
It is also the basic design element of the HO series - the table frame adopts a combination of 2 different specifications of round tubes.
The result is a workstation system with a modern floating feel and a soft shape.

CONCEPT

90 后、00 后纷纷进入职场，
已成为职场的中坚力量，
相比本世纪初，
当下的社会经济和居民生活水平已经相当发达与优质，
我们的文化与艺术发展也日渐成熟。
新一代弄潮儿对审美已形成要求，
他们对企业文化和工作环境有着相当的要求，
这也成为现世代企业人资稳定的关键因素。
如何提高员工满意度和忠诚度成为新的挑战。
在市场白热化的形势下，
我们不忘初心，回归源点，
去设计真正尊重用户，
时尚且有性价比的产品。
灵感来自中国东方“禅”学圆融的理念，
与万物和睦相融，
亦是 HO 系列的出发点。
“O”代表了对本质的思考，
也代表了圆融的处世观，
也是 HO 系列的基础设计元素—桌架采用了 2 种不同规格圆管组合，
创造出了一种极具现代飘浮感、外形柔和的工位系统。

The post-90s and post-00s have entered the workplace,
has become the backbone of the workplace,
Compared to the beginning of this century,
At present, the social economy and living standards of residents have been quite developed and high-quality,
Our cultural and artistic development is also maturing.
The new generation of trendy children has formed requirements for aesthetics,
They have considerable requirements for corporate culture and working environment.
This has also become a key factor in the stability of human resources in today's enterprises.
How to improve employee satisfaction and loyalty has become a new challenge.
In the situation of white-hot market,
We do not forget our original intention, return to the source point,
To design that truly respects the user,
Stylish and cost-effective products.
Inspired by the concept of "Zen" in the Chinese East,
In harmony with all things,
It is also the starting point of the HO series.
The "O" represents thinking about the essence,
It also represents a harmonious view of the world,
It is also the basic design element of the HO series - the table frame adopts a combination of 2 different specifications of round tubes.
The result is a workstation system with a modern floating feel and a soft shape.
